Condition: New. Publisher/Verlag: Birkhäuser Berlin | Innovative Building Types for Sustainable Urban Architecture | The integration of nature in architecture is a key concern of sustainability. However, all too often sustainable design is reduced to improving the energetic performance of buildings and the ornamental application of natural green. Dense + Green explores new architectural typologies that emerge from the integration of green components such as sky terraces, vertical parks and green facades, in high-density buildings. The book describes green strategies...
