PRESIDENT: Transmitted with this letter is the final report of the National Commission on Fire Prevention and Control. The report is based on almost 2 years of work by the Commission. We believe it presents the most significant fire safety problems, and the greatest opportunities for fire loss reduction, in the United States today. The vast majority of the Commission agreed with all fundamental issues. Over \$11 billion of our resources are wasted by destructive fires each year. Additionally, 12,000 people are killed and tens of thousands of persons are scarred physically and emotionally by fire. Recommendations are presented in this report which, if implemented, will significantly reduce this great toll. The recommendations emphasize prevention of fire through implementation of local programs. This is in keeping with the very nature of the fire problem which is felt hardest at the community level.
