Reviews

Absolutely among the best publication I have got at any time go through. It really is written in straightforward phrases rather than hard to understand. It's been designed in an extremely straightforward way which is just soon after I finished reading this publication through which basically modified me, alter the way I believe.

iUniverse, United States, 2005. Paperback. Book Condition: New. 224 x 150 mm. Language: English Brand New Book ***** Print on Demand *****.The land redistribution issue is a Southern African regional problem affecting present Zimbabwe and is very likely to affect South Africa and Namibia in the near future due to the historical racial based land allocation policies in these countries. Due to the need for raw materials and markets to sustain the industrial revolution, the colonization of Southern Africa was inevitable. Commercial farmland had to be acquired in the colonies displacing natives from the agricultural rich areas. The natives were excluded from commercial farming by law and due to their lack of training and capital. The land ownership related laws became the root cause of public disobedience and armed confrontations. On the achievement of majority rule, the landless expected the government to redistribute land in their favour while the commercial farmers expected the post-colonial governments to redistribute underutilized land. In the case of Zimbabwe, the Independence Constitution had a clause granting freedom from deprivation of property. Based on lessons learnt from the Zimbabwe land redistribution programme which ended up in violent commercial farm invasions and illegal occupations sometimes resulting in the lose of innocent lives, the South African and Namibian governments should plan for economically viable land redistribution programmes.
