Organization for Economic Co-operation and Development (OECD), France, 2011. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Are students well prepared to meet the challenges of the future? Can they analyse, reason and communicate their ideas effectively? Have they found the kinds of interests they can pursue throughout their lives as productive members of the economy and society? The OECD Programme for International Student Assessment (PISA) seeks to answer these questions through the most comprehensive and rigorous international assessment of student knowledge and skills. Volume III, Learning to Learn: Student Engagement, Strategies and Practices, examines 15-year-olds motivation, their engagement with reading and their use of effective learning strategies. Volume IV, What Makes a School Successful? Resources, Policies and Practices, examines how human, financial and material resources, and education policies and practices shape learning outcomes. Volume V, Learning Trends: Changes in Student Performance Since 2000, looks at the progress countries have made in raising student performance and improving equity in the distribution of learning opportunities. Volume VI, Students on Line: Reading and Using Digital Information, explores students use of information technologies to learn.
