Architect-Engineer Services: Selection Methods for Federal-Aid Highway and Transit Projects: Rced-86-167br

By -

BiblioGov. Paperback. Book Condition: New. This item is printed on demand. Paperback. 30 pages. Dimensions: 9.7in. x 7.4in. x 0.1in. Pursuant to a congressional request, GAO reviewed the use of the qualifications-based method of selecting architect-engineer contractors for federal-aid highway and transit projects. GAO found that: (1) support for the qualifications-based method is founded on the assumption that price competition extends the selection process and adversely affects design quality; (2) the conclusions of four studies GAO reviewed were not supported by related evidence, and the studies did not address apparent data comparability problems or gather sufficient information; (3) one study did not address the possibility that some transportation projects may be significantly larger and more complex, requiring more program development time and design and approval time; and (4) there was no evidence that undue delays in architect-engineering procurement processes resulted in increases to capital costs. This item ships from La Vergne, TN. Paperback.

Reviews

This book is definitely not easy to get going on reading through but extremely exciting to see. I am quite late in start reading this one, but better then never. I am pleased to explain how here is the finest book i actually have read inside my individual daily life and may be he best book for ever.

-- Mrs. Ellie Yost II

A must buy book if you need to adding benefit. I actually have read through and so i am certain that i will likely to read through once again once again down the road. I am just quickly could possibly get a delight of looking at a created ebook.
