SCREENING OF GESTATIONAL DIABETES IN KENYATTA NATIONAL HOSPITAL, KENYA

Screening of Gestational Diabetes in Kenyatta National Hospital, Kenya

LAMBERT

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | Gestational diabetes is a common medical condition complicating pregnancies worldwide with a global prevalence estimate of 4-14%. Despite this high prevalence, there is still lack of proper screening, diagnostic and management guidelines for this condition in spite of the attendant risks to both mother and her unborn baby. There is still a lot of discussion as to the best screening method and even who and when to screen for this condition. [...]

Reviews

I actually started off looking over this publication. I have read through and so i am certain that i am going to likely to study again yet again later on. I am easily will get a delight of reading a written pdf.

-- **Ross Hermann**

A must buy book if you need to adding benefit. I am quite late in start reading this one, but better then never. Its been designed in an exceptionally easy way in fact it is only after i finished reading this publication where in fact modified me, alter the way in my opinion.

-- **Prof. London Gerlach**
